OBJECTIVE

AI Engineer focused on Python, Generative AI, LLM APIs, prompt engineering, and AI application development. Skilled in building AI-powered workflows, integrating APIs, and working with data and databases.

PROFESSIONAL EXPERIENCE

AI Engineer

Siritek | 02 Apr 2026 – Present

- Develop AI-powered applications using Python and **LLM APIs**, including Groq and OpenAI-compatible services.
- Engineer effective prompts and structured outputs to improve AI response quality and consistency.
- Build Retrieval-Augmented Generation **(RAG)** workflows using document processing, embeddings, and vector search.
- Develop AI agents with tool-calling capabilities to automate multi-step tasks and **workflows.**
- Build and integrate REST APIs using **FastAPI** to connect AI services with application components.
- Implement error handling, testing, logging, and Git-based version control to improve application reliability.

Process Associate – Content Moderation & Quality Analyst

Genpact | 2025 – 2026

- Moderated digital content and ensured compliance with platform guidelines.
- Conducted quality checks on moderation decisions to maintain accuracy.
- Analysed moderation data and prepared reports to improve workflow efficiency.

PROJECTS

AI-POWERED DOCUMENT INTELLIGENCE ASSISTANT |

Python, RAG, FastAPI, LLM APIs

- Developed a document question-answering application using Retrieval-Augmented Generation (RAG) to provide context-aware answers from uploaded PDFs.
- Implemented text extraction, chunking, embedding generation, and vector similarity search to retrieve relevant document passa ges.
- Integrated an LLM API and FastAPI backend to generate answers with source references and handle application errors.

WEAPON DETECTION USING DEEP LEARNING (BACKEND + INTEGRATION) |

Python, OpenCV, YOLOv3

- Integrated deep learning models with backend pipelines to process **real-time surveillance frames**.
- Developed data-handling modules to manage **10,000+ annotated images** for model training and evaluation.
- Optimized preprocessing and backend logic, **reducing false positives by 18%** and improving detection accuracy

CUSTOMER SHOPPING BEHAVIOUR ANALYSIS |

Python, SQL, Power BI

- Conducted end-to-end analysis on **3,900 transactions**, generating insights on **$233K revenue** and customer segmentation.
- Performed data cleaning, feature engineering, and **SQL-based revenue analysis** across demographics and subscription behaviour.
- Identified high-value segments (**young adults generating $62K+**) and evaluated **27% subscription adoption opportunities**.
- Built an **interactive Power BI dashboard** enabling KPI monitoring and executive decision support.

SKILLS SUMMARY

TECHNICAL SKILLS

- **Languages**: Python, SQL
- **AI:** LLM APIs, Prompt Engineering, RAG, AI Agents
- **Libraries**: FastAPI, Pandas, NumPy, Scikit-learn
- **Databases**: MySQL, PostgreSQL, Vector Databases
- **Tools:** Git, GitHub, Postman, Power BI
- **Concepts:** REST APIs, OOP, Data Preprocessing, Model Evaluation

PROFESSIONAL SKILLS

- Problem Solving
- Analytical Thinking
- Debugging & Troubleshooting
- Collaboration & Teamwork
- Communication
- Time Management

EDUCATION

Sri Indu College of Engineering and Technology — Hyderabad, India
Bachelor of Technology - Information Technology: CGPA: 7.6 — **Jun 2021 - May 2025**

Narayana Junior College — Hyderabad, India
Intermediate – MPC: 93.8% — **Jun 2019 - June 2021**

Naagarjuna High School — Hyderabad, India
SSC– CGPA: 8.8 — **Jun 2018 - May 2019**

CERTIFICATES

- **Java (Basic) – Hacker Rank** | CERTIFICATE
  Demonstrated proficiency in Java fundamentals, OOP concepts, and problem-solving through coding assessments.
- **Campus to Technical Careers Training Program – TNS India Foundation** | CERTIFICATE
  Completed industry-focused training in Core Java, Spring Boot, Hibernate, HTML, CSS, JavaScript, MySQL, and Git.
- **IBM SkillsBuild Data Analytics Certification** | CERTIFICATE
  Completed certification covering SQL, Excel, Python, and Data Visualization with hands-on assessments.
- **Excel Certification Test – OneRoadmap** | CERTIFICATE
  Demonstrated skills in Excel formulas, functions, and data analysis tools.
